France To War on Billboards

So many and so vigorous have been the protests of the public against the dishguring of the highways and the countryside beauty spole of Franco by hillboards and other objectionable objects that the 1- ach gov ernment plans greatly to reduce the number of such offenses against taste if not bring about their elimination by wiging war against them through taxation. The gradnated rates of the proposed tay are so high as to make planniy evident that the purpose of the tax is not to this recenue but to penalize those who fail to remove disfiguiting objects which have been erected on their premises and discourage the erection of like objects in the future

In next years the lesy will be included a charge equivalent to \$1 in our money a square meter which is about eleven square feet for every billhoard of less than six square meters with a sliding scale which will run as high as \$100 for a billboard of more than thenty square meters-about square feet. An idea of the extent to which the evil has progressed to arouse the protest it has from the French people may be had when It is stated that some of the billboards Uning main roadways out of Paris will neces sitate the payment of a tax of \$15 000 an

nually if they are maintained Considering the innate respect the average Frenchman has for money it a pretty easy guess that a lot of billboards which at present mar the beauty of the Prench landscape will soon be nothing more than memories

An Annual Saving of \$90,356,000

Statistics compiled by the Interstate Com nerts commission show that the railways of the country for the first three month of the present year burned but 134 founds of coal for every thousand tons of freight and equip ment moved a mile—the record for a three month period—five pounds less than the cou sumption for the same reclod in 19.3 and uft) two points or twent) eight for cont less than in 13-1 it which time the rail roads or mized their compaign for efficiency tu operation

for the first quarter of the present year sixteen pounds of cost were used in the passixteen pachas to core as to design the package of the pamp persies consumed 16 to mile pounds in the first quarter of 19.3 and -6.7 pounds in the corresponding period of 1923 which means a unit sixing in coal con sumption in 1300 of twenty per cent com pared with 1:

Speaking editorially of those savings the current lesue of the Rallvay Age says. Based on the actual traffic handled in the

first quarter of 1.30 this increased efficiency since 14.3 in the use of incomotive fuel re sulted in a total saving in these farce months of 3 612 453 tone of coal Passenger service was responsible for 2 200 841 tons and freight service for 7 111 61. tons of this At the average prices paid for rullway

coal this increased efficiency in fuel use re sulted in a saving under the 1421 average fuel consumption amounting to \$22 689 000 or roughly fifteen per cent of the rallways not earnings for the first quarter of the year In other words almost one sixth of rillway net cornings in the first three months of 1930 was due to the lacre see made since 13-3 la the efficiency with which coul is burned in railway locomotives

Comparatively few of us are directly in-

terested in the railroads. We may use them when we travel or for the transportation of our goods. Comparatively few of us stop to reilled that the prespectly or lack of prospority of the railre ide it interwoven into the national business (thric which means pros parity or lack of prosperity for the country as a whole There may be excuse for lack of realiza-

tion on our part in this respect but there is no excuse for our failure to take I leaven from the efficiency manifested by the rail loads in fuel consumption. There is no ex case for failure of appreciation of what an ings in ty be accomplished by guarding against the little husiness lenks. A lessen may be had from what the railroads are accomplish ing by savings of pounds or fractions of pounds here and there of toul. A saving of \$22 584 800 in three months through of ficiency means a gaving of \$90 356 000 a

Courage Necessary To Grow Old Gracefully

BY JOSEPHINE HUDDLESION
A dauntless aports is the first requisite of beauty. With such courage any woman can gain an attractive and charming personality and appearance such we she has never known. But it does take courage and the will to cerry on because there is no one curvall that will effect miracles. First it takes the courage to an observer—the eye that sees you as others do. I often wonder how many women fail to reach beauty is simply because they hoodwink the facts concerning themselves. I know that many do because in my work Ive had to tell so many of them that they must face certain facts of their own physical appearance only to have them supiling and fune and try to talk toe into agreeing with their missingled notion of their own physical appearance only to have them supiling and fune and try to talk toe into agreeing with their missingled notion of their own physical self.

Cleveland Snaps Losing Streak by Edging Out A's, 4-2.

BY HUGH S. FILLERTON, JR.

BY HUGH S. FILLERTON, JR.
Associated Press Sports Writer Considering the closeness of the rivalry among the National league clubs, the tenure of Brooklyn as leader of the circuit is something really remarkable. The Robins, who caused gomething of a surprise when they first gained the top, have shown the way to their rivals for nearly a month despite numerous threats to their security. After various ups and downs, the Robins took the land at

their security. After various ups and downs, the Robins took the lead at the end of Mays and have not been displaced since. In the past two days, the Cheege Cabs, who have been right on Brooklan's break had a big chance to assume the lead after Brooklan had a second as a few general trough tossed away a few games th while the Cobs tasted to Francisch strain of puranit and dropped to 2% games behind restenday with a 3-2 defeat at the hands of the Boston Braves while Brooklyn was downing Putsburgh, 9 to 6.

The costly Robin errors disappeared which proper has been paged in the costs.

12 to 3 and 8 to 3. Flint Rhem and Barleigh Grimes, the latter making his first start for St. Louis, held the Phillies well under control.

The Detroit Tigors aftered the American league standing a bit by whating a pair of games from the Boston Red Soy, 5 to 3 and 4 to 2. The double trhingh while St. Louis was dividing a to in bill with the New York Yankers, put the Tigors Into fifth place. Detroit had good pitching and "the breaks," scoring nil of its runs off Milton Gaston in the distingame in one inning without carning one. A homer by Gehringer travided the margin in the short second contest.

Despite their even break, the Yunkees pleked up a luft game on the leading Philudelphia Athleties, who moved to Cleveland for Sunday who moved to Cleveland for Sunday and dropped the final contest to the Indians, 4 to 2.
